Fire Department Monthly Newsletter

September 2017

Total Calls for Month 27

Medical Calls-20

Fire Calls-5

Mutual Aid Calls: 2

Training held at the department this month was hose testing on all the fire trucks. Each hose that is available to use on the trucks has to withstand a certain pressure of water on it for 10 minutes to be allowed to be past and placed back in service. This takes the department about 5-6 hours each year to do the testing.

Nathan Turner joined the department as a firefighter this past month as well as Jace Gongora has gone from a Fire Cadet (our program with the school) to a full time member of the department as a firefighter and emergency medical responder.

We will be having the Kindergarten classes down to the fire station for Fire Prevention week on Friday October 13th. As well as assisting with a city wide fire drill on Friday October 13th @ 1:30. This is a great opportunity to run through your fire safety at work or home.
