FIRE PIT SAFETY

- Placement: the fire pit must be at least 15 feet from any building, vehicle, shrubbery or from the street.
- The fire pit must be above ground with no holes larger than a dime in the bottom.
- Starting the fire: do not use garbage, leave or paper to start the fire. Do not pour gas or oil on the fire. Firestarters work best and can be purchased most anywhere.
- Building the fire: flames should not be any taller than 3 foot. Do not start a fire with winds above 6mph.
- Supervising the fire: One adult should be outside within 20' of the fire and should stay with the fire at all times until the fire is out and no embers are glowing.
- Putting out the fire: use a steady stream of cold water. The fire will be out when you see no red, white, or orange glow in the embers and no smoke.
- Cleaning the pit: DO NOT DUMP HOT ASHES!! Wait 24 hours before covering or cleaning the pit.
- Who to call in an emergency? Call 911

I have read the above statements and agree to follow the safety rules of a recreational burn permit. **This permit is valid unless revoked by the Fire Chief.**
